PROFESSIONAL SUMMARY

General Affair and Operations professional with experience managing office operations, company assets, procurement, petty cash, vendors, facilities, IT infrastructure, and administration across two office locations. Combines hands-on operational experience with cost analysis, process improvement, and automation through internal tools built with Python, React, TypeScript, Telegram, OCR, and Google Sheets. Focused on improving operational efficiency, supporting data-informed decisions, and preserving operational knowledge so it does not depend on one person.

PROFESSIONAL EXPERIENCE

PT. Hompimpa Mahakarya Nusantara — Surabaya & Malang

Staff General Affair | October 2023 – Present

CORE RESPONSIBILITIES

- Manage petty cash, operational procurement, inventory, facilities, vendor relationships, and routine reporting across two office locations.
- Manage company assets and IT infrastructure covering PCs, laptops, iPads, servers, AC, electrical systems, and office equipment, including maintenance and repairs.
- Prepare monthly and annual inventory reports and maintain asset naming, identification, and documentation systems.
- Manage digital archiving, contract-expiry reminders, legal/operational documents, attendance administration, CEO logistics, and company events.

SELECTED ACHIEVEMENTS & OPERATIONAL IMPACT

- Independently resolve approximately 10–15 PC maintenance and troubleshooting cases per month without relying on external vendors, and assemble custom PCs from individual components based on operational requirements.
- Prepare multi-vendor procurement comparisons and recommendations by evaluating price, specifications, warranty, availability, and operational requirements.
- Analyze PC power consumption and usage patterns to estimate monthly electricity requirements and forecast expected operational costs.
- Coordinate the simultaneous relocation of two offices and readiness of server, internet, electricity, AC, and workstation infrastructure while maintaining operational continuity.
- Optimize office electricity costs through tariff-category restructuring, with an observed reduction of at least 21% in monthly electricity expenses across two office locations.

PT. Smart Mulia Abadi — Surabaya

Sales Executive & Sales Consultant | June 2023 – October 2023

- Consult customers on Vespa, Piaggio, and Aprilia product selection, purchase, and payment processes.
- Manage sales and marketing activities in Jombang and surrounding areas.
- Achieve average sales of 3–5 units per month against a target of 4 units per month.
- Develop negotiation, communication, and customer-management skills later applied in General Affair operations.

SELECTED PROJECTS — OPERATIONS & AUTOMATION

GA OS — General Affair Operating System

Designed and developed an internal web application concept to digitize General Affair operations and preserve operational knowledge. The system brings together asset management, inventory, task management, operational knowledge, reporting, and access management.

Technology: React · TypeScript · Vite · Tailwind CSS

AI Petty Cash Assistant

Built a Telegram-based automation workflow for petty cash reporting, including receipt OCR, transaction extraction, classification, and Google Sheets integration to reduce repetitive manual entry.

Technology: Python · Telegram Bot · Google Vision OCR · Google Sheets API

AI IT Reporting Assistant

Designed an AI-assisted IT reporting workflow that turns informal employee reports into structured issues, classifies severity, and helps route higher-priority cases for follow-up.
